With a staple finish, you can maintain its low environmental impact, and quick recovery from sleep mode and a low TEC value, which means you save on energy costs while still maintaining high performance.. In fact, thanks to its intelligent connectivity, you can operate your MFP with mobile devices, integration with smartphones and tablets and allow independent access and print from virtually anywhere.. You can even scan and save color documents directly to email, media, and portable folders, which helps speed up the creation and output document.
